WORK EXPERIENCE

CTR Trades – Full Stack Developer (Remote)

Dec 2024 – July 2025

- Built and deployed ctrtrades.com with user authentication, SEO optimization, and database-driven features.
- Designed an e-commerce system with real-time sales tracking.
- Created a trading journal that dynamically calculates profit/loss and integrates with live BTC APIs.
- Developed a Discord Bot in Python to assist traders with liquidity and profit calculations.

F3 – Intern (Remote)

Jul 2024 – Dec 2024

- Learned Flutter/Dart basics and collaborated with senior developers.
- Built a To-Do application with authentication and task management features.

Seed to Table – IT Technician (Naples, FL)

Jan 2022 – Jan 2024

- Troubleshoot and resolved networking, software, and hardware issues in a high-volume environment.
- Optimized system uptime by diagnosing recurring device failures.

LEWON Styles – **Business Owner (Remote)**

Jul 2023 – Jan 2024

- Launched and managed an e-commerce brand with 100+ sales.
- Built website, marketing campaigns, and handled logistics.

PROJECT EXPERIENCE

Trading Indicator (Pine Script)

- Built a custom TradingView indicator for MFI, MACD, and buy-in signals aligned with a personal strategy.

Crypto Trading Learning Course (JS/HTML/CSS, Firebase)

- Developed an online course with Firebase authentication teaching beginners how to trade from zero to success.

Mini LMS (React + Django REST API)

- Built a learning management system with user login, dynamic course content, and backend data management.

BTC Cycle Prediction Script (Python)

- Designed a Python script that predicts Bitcoin cycle transitions (left, right, middle) and plots on graphs.

Trading Community & AI Integration

- Grew a community of 50+ traders using custom tools and journals. Currently integrating AI models to detect market structure and candlestick patterns.

Portfolio Website (Front-End, GitHub Hosting)

- Built lewieville.site to showcase personal projects, including animations and parallax effects.

Database Hosting (Python, SQL, AWS/GCP/Azure)

- Set up MySQL databases across multiple cloud platforms; hosted a website on Ubuntu with nginx.

LEADERSHIP & MENTORSHIP

CTR Trades – Manager (Remote)

- Built an interactive learning community for traders, including beginner modules and support bots.

Crypto Mentorship Business – Founder (Remote, Jul 2024 – Present)

- Provide 1-on-1 mentorship to aspiring crypto traders, selling training products and personalized coaching.

LDS Mission – Missionary (São Paulo, Brazil)

- Taught language and faith principles; translated for new missionaries.

Powerbuilding Coach (Remote, Jan 2023 – Dec 2023)

- Coached clients with personalized training plans, leading two to win powerlifting competitions.
